I want to know what you think!

The 2008 Session of the Iowa Legislature is behind us, but there is still important work to be done as we approach next years session. Every year there are hundreds of bills that are proposed. **I want to know what issues are important to you so I can better serve you.** Just as middle class families have to budget and set priorities, so does the state government. I want to know what you think.

I look forward to hearing from you.

Sincerely,
